PROFESSIONAL SUMMARY

Dynamic and compassionate tech educator with a proven ability to simplify complex concepts and inspire learners. Skilled in using technology to enhance learning outcomes, boost student performance, and create inclusive digital learning environments. Experienced in teaching digital skills, exam prep, and foundational tech tools to diverse groups, from students to aspiring professionals.

WORK EXPERIENCE

Information Technology Instructor | Fruitful Life Computer Academy | November 2024 – March 2025

- Trained 15 students and professionals in Microsoft Excel and Google Sheets, improving their data analysis and reporting efficiency by 50%.
- Designed and delivered interactive lessons on data manipulation, visualization, and automation, leading to 70% improvement in participants' proficiency.
- Developed hands-on assignments and projects that resulted in students successfully applying data analytics techniques in real-world scenarios.

JAMB Instructor | Fruitful Life Computer Academy | February – March 2024

- Integrated a JAMB simulation app into the teaching process, helping students build confidence and familiarity with computer-based test environments.
- Simplified exam strategies and digital literacy skills, leading to a 30%+ improvement in student scores compared to previous JAMB performance.
- Fostered a supportive, tech-friendly learning space that helped students overcome anxiety around digital exams.

Program Officer | Young African Leaders Initiative, Cross River | January 2024 – January 2025

- Designed and delivered engaging STEM and tech-focused lessons to secondary school students as part of the YALI4Schools Initiative, sparking early interest in technology and innovation.
- Facilitated hands-on workshops during the International Day of Women and Girls in Science, equipping young women with practical computer skills and boosting their confidence in tech.
- Cultivated strategic partnerships with tech-focused stakeholders and donors, leading to 100% donor retention and long-term support for youth-centered digital education initiatives.

Independent Data Analytics Instructor | October 2024- November 2024

- Provided one-on-one tutoring in data analysis, Microsoft Excel, SQL, and Power BI, helping learners improve their analytical skills.
- Guided professionals and students in data cleaning, visualization, and reporting, leading to improved decision-making in their respective fields.
- Designed custom learning plans tailored to individual skill levels, resulting in mentees successfully applying data analytics in their work.

Academic Tutor | Gladden’s International School | October 2024 – November 2024

- Improved student math performance by 30% by breaking down complex concepts into fun, relatable lessons.
- Adapted teaching methods to meet individual learning needs, providing tailored support to students who needed extra help.
- Created a nurturing classroom environment by grouping students by ability and building their confidence through encouragement.
- Modernized the curriculum and integrated technology to make learning more engaging and relevant to students’ everyday lives.

Data Collector | Cross River State Ministry of Agriculture | March 2024 – August 2024

- Collected and managed farmers' data, improving the ministry’s agricultural initiatives and increasing farmers' access to loans by 25% through enhanced data verification.
- Trained rural farmers on spreadsheet software for record-keeping and budgeting, leading to improved financial planning and more efficient resource management.

Data Entry Specialist | Restored Heart Foundation | October 2023

- Collected and analyzed participant and viewer data from the Young Historian Competition, leveraging Excel to organize results and provide data-driven insights for future events.
 - Streamlined communication between executives and participants, ensuring efficient data flow and decision-making based on audience engagement trends.
